ECONOMIC LITERACY RESOURCES KIT FOR CEE/CIS

GENDER AND ECONOMY

How not to be afraid of economic lobbying and advocacy

WARSAW 2005

Acknowledgment

On behalf of Karat Coalition I would like to thank all the organisations and individuals who contributed in various ways to the production of this publication. First of all I would like to thank Women in Development Europe (WIDE) not only for its continuous financial support needed for the production of this kit but also for the persistent support and co-operation as far as economic literacy program at Karat is concerned. Benedicte Allaert of WIDE needs to be acknowledged here by name for her understanding of the importance of Economic Literacy for CEE/CIS region and incorporating Karat into WIDE's economic literacy initiatives. Contribution of Jivka Marinova, Karat's economic literacy educator from Bulgaria and a great contributor to Karat's Economic Literacy Program has to be also highlighted here. The authors of two chapters of this Kit: Silke Steinhilber and Elizabeth Villagomez need to be acknowledged together with all the women, Karat members and non-members, who read the different drafts of the Kit. Silke Steinhilber needs to be additionally acknowledged for co-facilitation (with Elmira Nazombe, Jivka Marinova and myself) of the Economic Literacy Workshop in 2004, at which many of the materials printed in this Kit have been 'tested' on the group of fantastic women from CEE/CIS. Finally I would like to thank Narmina Hebanowska who translated this kit to Russian.
